

DIPLOM IN PHARMACOVIGILANCE

Duration: 3 Months | Mode: 100% Online |

Fee: ₹12,999 / \$299

Step into the world of Drug Safety & Pharmacovigilance Career

About the Program

The Diploma in Pharmacovigilance by Pharma Research is a focused 3-month online certification program that equips learners with expertise in drug safety monitoring and adverse event reporting. It covers essential topics such as pharmacovigilance principles, global regulatory requirements (WHO, US FDA, EMA), case processing, MedDRA coding, signal detection, risk management, and safety databases. Tailored for life sciences graduates and professionals eager to transition into pharmacovigilance, it offers an IACCRE-accredited certificate, lifetime access to expert study materials, and placement support. Graduates become eligible for roles like Drug Safety Associate, PV Officer, or Case Processor.
